Candidate File.xlsx;

Hi Victor.

The next step in your interview process will be an analytical exercise. Please complete this exercise before your in-person interview and come prepared to discuss the results.

Please evaluate the attached data set and prepare to do the following:

0. Presentation (Power Point deck) that would be appropriate to get an executive up to speed on critical components of this data set in about 5-10 minutes. Use your judgment as to what you think are the most important points. You can consider this the Executive Summary.
1. Conduct an in-depth discussion of the data with your peer-level colleagues, outlining the data and your observations. Please be prepared with a summary of the data. You can consider this the body of your presentation.

In addition, prepare to answer the following questions:

0. What is the “bad rate”, “approval rate”, and average loan amount by *channel*?
1. What is the “bad rate”, “approval rate”, and average loan amount by *risk level*?
2. What do you think the different risk classes (N,J,B) likely represent?

Please plan to provide an electronic copy of documents to discuss (either email me or bring a laptop). You may provide (6) hard copies if desired, however an electronic version is required.

Please confirm receipt of this assignment.

Best wishes, we look forward to meeting you soon,

Thank you.

Anna Fisher

Hi,

I am really excited to interview and meet the team on Monday!

I was wondering what the presentation will be on so that I can prepare accordingly.

Respectfully,
Estefania Hernandez
